## Figure 3: FY 2009 NIH Collaborative Activities and Funding Contributions by Category

**Total Collaborations = 498 Funded Collaborations = 193 NIH Funding Contributions = $304,987,418[1]**

[1]Total NIH funding contributions for all categories combined equals $304,987,418 for FY 2009.
[2]Each funding percent represents the total NIH dollars contributed for a particular category divided by the total NIH dollars contributed for all 193 funded collaborations in FY 2009. The 305 non-funded collaborations are not included.
[3]Other collaborations include, but are not limited to, data service, data content, detailed personnel, and logistical support.
