| Avian Influenza Collaborative Project | Research Initiative | This multinational research is aimed at modeling the transmission dynamics of Avian Influenza (AI) spill-over from birds to humans using field data from different regions (Asia, Africa, Latin America). The expected project output is an ecological model for AI spill-over which will help us predict these events as well as inform and focus our global Avian and Pandemic Influenza prevention and response activities. This is one of the few multi-national ecological studies to develop an understanding of the critical elements of spillover and transmission of influenza which integrates diverse fields of expertise (ecologists, geospatial technology experts, modelers, virologists, and epidemiologists) and will produce a predictive model. By providing supplements to Fogarty grantees, this activity leverages FIC's multi-disciplinary network of current grantees, and it promotes sample and data sharing. | CDC/OS | Global Health: Infectious Diseases. | **FIC** | Empowering Biomedical Research Community: Global Health. | 2009 | 1,714,006 |

| Clinical Decision Support (CDS) Federal Collaboratory and Inventory of Federal Clinical Decision Support Activities | Committee/Workgroup | A federal community of interest focused on clinical decision support, and a compilation of project summaries describing CDS activities that are either funded by the US Federal government, or that are being executed by agencies of the government. The term Clinical Decision Support (CDS) describes a variety of tools and technologies that are used within electronic clinical information systems to improve the quality, safety, efficiency and effectiveness of patient care. CDS provides clinicians, staff, patients, and other key decision makers with knowledge and person-specific information, intelligently filtered at appropriate times, to enhance health and health care. CDS encompasses computerized alerts and reminders, clinical guidelines, order sets, order entry feedback, patient data reports and dashboards, documentation templates, diagnostic support, and the presentation of contextually relevant reference information within clinical information systems. NLM has submitted to the Collaboratory and Inventory summaries of NLM projects involving Clinical Decision Support. | AHRQ/CDC/ HRSA/IHS/OS | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public, Fast-track innovation planning and regulatory review, and Innovative Biomedical Technologies. | CC/**NLM** | Health Care Reform: Health Information Technology. | Unknown | 0 |

| Mapping of the SNOMED CT and ICD Clinical Terminology | OTHER: Content Services | The U.S. Department of Health and Human Services (HHS) has set a goal for the nationwide implementation of an interoperable health information technology infrastructure to improve the quality and efficiency of health care. Achieving this goal will require that key clinical data elements are captured or recorded in detailed, standardized form (using standard vocabularies, codes, and formats) as close to their original sources (patients, health care providers, laboratories, diagnostic devices, etc.) as possible. If these standardized clinical data can also be used to generate HIPAA-compliant billing transactions automatically, this will provide another incentive for adoption of clinical data standards. For automated generation of bills from clinical data to become a reality, robust mappings from standard clinical terminologies to the HIPAA code sets must be created. | CDC/OS | Global Health: Strategic Initiative. | NIH State-of-the-Science Conference: Family History and Improving Health | Meeting/Workshop | NIH State-of-the-Science Conference provides a written statement on a controversial medical topic prepared by an independent panel of health professionals free from conflicts of interest on the basis of the results of a systematic literature review, presentations by experts in the field, and public comments and questions. Given the unprecedented proliferation of genomic information and the possibility of health care reform, this conference was convened to clarify the role of the family history, its validity in the primary care setting, and its effect on individual and population health outcomes. The panel recognized that family history has an important role in the practice of medicine and may motivate positive lifestyle changes, enhance individual empowerment, and influence clinical interventions. The panel found that it is currently unclear how this information can be effectively gathered and used in the primary care setting for common diseases. | AHRQ/CDC/ HRSA/OSG | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. | Package and Distribution of Nutritional Biochemistry for AREDS 2 | Research Initiative | AREDS2 is a multi-center randomized trial designed to assess the effects of oral supplementation of high doses of macular xanthophylls (lutein and zeaxanthin) and/or omega-3 LCPUFAs (DHA and EPA) for the treatment of AMD and cataract. The primary objective of AREDS2 is to evaluate the effect of dietary xanthophylls (lutein/zeaxanthin) and/or omega-3 LCPUFAs (DHA and EPA) on progression to advanced AMD. This objective will be accomplished by collecting and assessing the data on approximately 4,000 AREDS2 participants aged 50 to 85 years, who at the time of enrollment have either: 1) bilateral large drusen or 2) large drusen in one eye and advanced AMD (neovascular AMD or central geographic atrophy) in the fellow eye. | OS | Accelerate Discovery to Improve Patient Care: Translate basic science into new therapies. | The Healthy People 2010 Partnership for Heart Disease and Stroke | OTHER: Memorandum of Understanding | This partnership will catalyze progress toward the goals and targets set forth in the Healthy People 2010 Heart Disease and Stroke focus area, and improve the health of our communities and our nation, by means of programs, products, and services to: Prevent the development of risk factors for cardiovascular disease (CVD); Detect and treat risk factors for CVD; Achieve early identification and treatment of acute coronary syndromes and stroke; and Prevent recurrence and complications of CVD. | CDC/IHS/OS | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public and Patient-centered research. Nutrition/Obesity. Social/Behavior Research. | NHLBI/**NINDS** | Health Care Reform: Behavioral Science and Health Disparities. | 2001 | 0 |
| The Surgeon General's Call to Action to Prevent and Reduce Underage Drinking and the Guides to Action for Families, Communities and Educators | Public Education Campaign | NIAAA partnered with the Office of the Surgeon General and SAMHSA to develop and disseminate the Call to Action. | OSG/SAMHSA | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. Early Childhood Health/Development. Social/Behavior Research. | **NIAAA** | NONE | 2005 | 0 |
| Tobacco and Young, Low-SES Women: Federal collaboration to Make a Difference | Meeting/Workshop | This is a Federal Inter-agency working group to identify gaps in the current portfolio of smoking cessation programs for women and promoting activities to prevent and reduce tobacco use in young, low-SES women. Future activities are currently in the planning stages. | CDC/HRSA/OS | Tobacco Prevention and/or Control. | NCI/**NIDA** | Health Care Reform: Health Disparities. | 2007 | 0 |
| Tobacco Control Strategic Planning Committee | Committee/Workgroup | This committee, led by the Department of Health and Human Services, helped to develop the HHS Tobacco Control Strategic Action Plan. | CDC/FDA/HRSA/ OS/SAMHSA | Tobacco Prevention and/or Control. | NCI/**NIDA** | Translational Research. | 2010 | 0 |
| Trans-HHS Taskforce on Harmonization of Ethical and Legal Policies Related to the Use of Human Specimens and Data in Research (HELPS) | Committee/Workgroup | Data (HELPS) explores ways of harmonizing federal regulations and policies related to research involving human specimens and data. HELPS is chaired by NIH/OBA. | AHRQ/CDC/FDA/ OS | Accelerate Discovery to Improve Patient Care: Fast-track innovation planning and regulatory review and Translate basic science into new therapies. | **OD** | Health Care Reform: Health Information Technology. High-throughput Technology. | Unknown | 0 |
| Trans-NIH Plan for HIV-Related Research | Committee/Workgroup | Authorized by section 2353 of the Public Health Service Act, this annual collaborative planning process establishes scientific priorities for all NIH AIDS research. Broad input is solicited from scientists from NIH, other government agencies, and non-governmental organizations, as well as community representatives and other experts from the United States and abroad. | CDC/FDA/OS | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public, Innovative Biomedical Methodologies, Innovative Biomedical Technologies, Patient-centered Research, and Translate basic science into new therapies. Global Health: Infectious Diseases and Strategic Initiative. HIV/AIDS. Social/Behavior Research. | CC/CSR/FIC/ NCCAM/NCI/ NCRR/NEI/NHLBI/ NHGRI/NIA/ NIAAA/NIAID/ NIAMS/NIBIB/ NICHD/NIDA/ NIDCD/NIDCR/ NIDDK/NIEHS/ NIGMS/NIMH/ NIMHD/NINDS/ NINR/NLM/**OD** | Empowering Biomedical Research Community: Training and Global Health. Health Care Reform: Behavioral Science and Health Disparities. Translational Research. | 1994 | 0 |
| Treatment and Outcomes of Critical Illness in Children and Adults with H1N1 Influenza in the US. | Research Initiative | The NHLBI acute respiratory distress syndrome network (ARDSnet) documented H1N1-associated critical illness in intensive care units in the U.S. Funding also provided for the Pediatric Acute Lung Injury and Sepsis Investigators (PALISI), a pediatric critical care network to obtain similar information on pediatric patients. The work was requested by DHHS/ASPR. The data collection form was developed collaboratively among NHLBI investigators, NHLBI staff, CDC, DHHS/ASPR, and NIAID. | CDC/OS | Global Health: Infectious Diseases. | **NHLBI**/NIAID | Empowering Biomedical Research Community: Global Health. | Unknown | 0 |

| Table 21: OS/OSG Collaborations - FY 2010 = 156 | | | | | NIH Funding = $45,715,424 | | | |

| Tribal Health Research Advisory Council (HRAC) | Committee/Workgroup | To support the activities of the Council, including obtaining input from tribal leaders on health research priorities and needs; and dissemination of information. | OS | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. | **NIMHD** | Health Care Reform: Health Disparities. | 2006 | 16,700 |
| U. S.-Japan Cooperative Medical Science Program (CMSP) | Committee/Workgroup | This is a bilateral program with Japan. Various HHS agencies were invited to participate in various events (e.g., conferences). | CDC/FDA/OS | Global Health: Specific category priorities not reported. | **NIAID** | Empowering Biomedical Research Community: Global Health. | 1965 | 0 |
| Understanding International Health Differences in High-income Countries: Patterns, Puzzles, Paradoxes, and Public Health Opportunities | Committee/Workgroup | The National Academy of Sciences in collaboration with the Institute of Medicine, is examining international differences among high-income countries in measures of health and disability over the life-cycle with special attention to public health implications for the USA. The USA compares poorly against other countries on many critical indicators of health and well-being. The examination will review available data and offer a state-of-the science assessment of underlying individual and societal causes. | OS | Social/Behavior Research. | FIC/NIA/**OD** | NONE | 2010 | 763,000 |
| US-Ireland Research & Development Partnership | Research Initiative | The goal of the partnership is to stimulate collaborative research between the U.S. and Ireland in the area of cystic fibrosis, diabetes, and nanotechnology. Government agencies and non-profit organizations, including NHLBI, NIDDK, NSF, Cystic Fibrosis Foundation, R&D Office (Northern Ireland), Dept. of Enterprise, Trade, and Employment, Health Research Board, Science Foundation Ireland and Inter-Trade Ireland, participate. As an outgrowth of the U.S.-Ireland R&D Partnership, a grant proposal on the role of anaerobic bacterial infection in CF was submitted to NIH which involves U.S.-Ireland tripartite scientific collaboration. | OS | Accelerate Discovery to Improve Patient Care: Innovative Biomedical Technologies. | **NHLBI**/NICHD | Translational Research. | 2006 | 740,568 |
| Violence Against Women Steering Committee (DHHS VAW) | Committee/Workgroup | This is the committee that represents DHHS as part of the implementation of the VAW Act. This committee collaborates with the Dept of Justice to implement the VAW Act. | ACF/AoA/AHRQ/ CDC/HRSA/IHS/ OS/SAMHSA | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. Social/Behavior Research. | NIA/NIAAA/ NICHD/NIDA/ NIMH/NINR/NLM/**OD** | Health Care Reform: Behavioral Science. | Unknown | 0 |
| Youth Initiatives | Meeting/Workshop | To support activities and projects, including lectures, workshops, and round table discussions, and recruitment of minority students into health professions. | OS | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. | **NIMHD** | Health Care Reform: Health Disparities. | 2001 | 842,750 |
