| Annual Tribal Budget Consultations | Meeting/Workshop | In compliance with Executive Order 13175, the Secretary of HHS convened Annual Tribal Budget Consultation sessions in 8 of 10 HHS regions. Tribal Affairs, Office of Intergovernmental Affairs coordinated and executed the sessions. Accordingly, each Federal agency must have an accountable process to ensure meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications. While HHS and a number of its operating divisions have established a consultation process, the NIH has not established such a process. NICHD participated in the Denver session held in HHS Region 8. | ACF/AoA/AHRQ/ ATSDR/CDC/ CMS/FDA/HRSA/ IHS/OS/OSG/ SAMHSA | NONE | **NICHD** | Empowering Biomedical Research Community: Workforce Diversity. | Cancer Disparities Research Partnership (CDRP) Program | Research Initiative | A CDRP grantee, Rapid City Regional Hospital (RCRH) in Rapid City, South Dakota, is addressing the cancer disparities seen with American Indians (AIs) living in western South Dakota. Collaborative efforts have allowed RCRH to offer the latest cancer prevention, symptom management and surgical/medical/radiation oncology treatment trials available to all AIs and underserved white patients living in Rapid City. Additionally, AIs living in three remote reservations 100-150 miles from Rapid City also have full access to accrual to clinical trials at RCRH. Working with the IHS clinic staff at these reservations, the CDRP provide support to AIs and better access to cancer care at RCRH. Working with the national IHS and Aberdeen area IHS offices, IRB approval for all RCRH clinical protocols is required to insure the protection of all AIs participating in clinical trials. | IHS | Accelerate Discovery to Improve Patient Care: Patient-centered Research and Translate basic science into new therapies. | **NCI** | Empowering Biomedical Research Community: Specifics not provided. | 2002 | 0 |
| Clinical Decision Support (CDS) Federal Collaboratory and Inventory of Federal Clinical Decision Support Activities | Committee/Workgroup | A federal community of interest focused on clinical decision support, and a compilation of project summaries describing CDS activities that are either funded by the US Federal government, or that are being executed by agencies of the government. The term Clinical Decision Support (CDS) describes a variety of tools and technologies that are used within electronic clinical information systems to improve the quality, safety, efficiency and effectiveness of patient care. CDS provides clinicians, staff, patients, and other key decision makers with knowledge and person-specific information, intelligently filtered at appropriate times, to enhance health and health care. CDS encompasses computerized alerts and reminders, clinical guidelines, order sets, order entry feedback, patient data reports and dashboards, documentation templates, diagnostic support, and the presentation of contextually relevant reference information within clinical information systems. NLM has submitted to the Collaboratory and Inventory summaries of NLM projects involving Clinical Decision Support. | AHRQ/CDC/ HRSA/IHS/OS | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public, Fast-track innovation planning and regulatory review, and Innovative Biomedical Technologies. | CC/**NLM** | Health Care Reform: Health Information Technology. | Unknown | 0 |
