**Table 25: Committee/Workgroup Collaborations - FY 2010 = 227** **NIH Funding = $19,248,764**

| Collaboration Title and Link | Collaboration Type with Various Additional Links | Brief Description of Collaboration | HHS Participating Agencies | HHS Strategic Priority Alignment | NIH Participating Institutes/Centers/ Office of the Director (Activity Submitting Office(s) Bolded) | NIH Strategic Priority Alignment | Year Collaboration Originated | NIH Funding Contribution in FY 2010 |
|---|---|---|---|---|---|---|---|---|
| 2009 National HIV Prevention Conference | Committee/Workgroup | Planning Committee for the national conference on HIV prevention that is held every other year. | CDC/HRSA/OS/ SAMHSA | HIV/AIDS. Social-Behavior Research. | NIDA/NIMH/**OD** | Health Care Reform: Behavioral Science, Health Information Technology, and Health Disparities. | 2003 | 0 |
| Adolescent Health Work Group for Healthy People 2020 | Committee/Workgroup | This ongoing workshop addresses adolescent health - a continued Healthy People 2020 topic. The committee identifies opportunities that could be implemented with existing resources, and new ideas requiring additional resources. Currently, the focus is on three current near-term priorities: (1) Enrolling eligible adolescents in Medicaid and the Children's Health Insurance Program; (2) Preventing and addressing mental disorders and promoting mental wellness in adolescents; and (3) Engaging youth. | ACF/AHRQ/CDC/ CMS/FDA/HRSA/ OS/SAMHSA | Social/Behavior Research. | **NICHD**/NIMH | Health Care Reform: Behavioral Science. | Unknown | 0 |
| Adolescent Health Working Group | Committee/Workgroup | Interagency working group established in January 2010 within the Office of the Assistant Secretary for Health as a forum for HHS agencies to share updates on adolescent health activities and address cross-cutting issues. | ACF/AHRQ/CDC/ CMS/FDA/HRSA/ IHS/SAMHSA | Social/Behavior Research. | **NIDA**/NIMH | Health Care Reform: Behavioral Science. | 2010 | 0 |
| Advisory Committee on Childhood Lead Poisoning Prevention | Committee/Workgroup | The overall goal of the ACCLPP is to provide advice that will assist the nation in reducing the incidence and prevalence of childhood lead poisoning. | CDC | Early Childhood Health/Development. | **NIEHS** | NONE | 1998 | 0 |
| Advisory Committee on HIV and STD Prevention and Treatment | Committee/Workgroup | Chartered committee to advise CDC and HRSA on HIV and Sexually Transmitted Diseases (STD) programs. | AHRQ/CDC/ CMS/FDA/HRSA/ IHS/OS/SAMHSA | Global Health: Infectious Diseases. HIV/AIDS. | **OD** | NONE | 2003 | 0 |
| Advisory group for CDC/ARDI study of Economic Costs of Excessive Alcohol Consumption | Committee/Workgroup | This group advises the CDC Alcohol Team on the development and execution of a contract study of the economic costs of excessive alcohol consumption. | CDC | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. | **NIAAA** | NONE | 2007 | 0 |
| All-Ireland NCI Cancer Consortium (AICC) | Committee/Workgroup | MOU between HHS and the ministries of health of Ireland and Northern Ireland to reduce the incidence and mortality due to cancer on the island of Ireland, which has one of the highest rates of cancer in Western Europe. AICC is regarded as a major stepping stone towards enhancing diplomatic relations between the United States, Ireland, and Northern Ireland, bringing together the three governments in the fight against cancer. The AICC recently celebrated its 10-year anniversary. | OS | Global Health: Non-Infectious Diseases. | CC/**NCI** | Empowering Biomedical Research Community: Global Health. Health Care Reform: Health Research Economics. | 1999 | 320,000 |
| American Conference for the Treatment of HIV (ACTHIV) | Committee/Workgroup | Participate on the Federal Scientific Collaborative Board of the ACTHIV, which is a conference for all frontline clinicians providing HIV care for various population groups; including adults, adolescents, children, and pregnant women. | CDC/HRSA | Health Care Quality/Patient Safety. HIV/AIDS. | NCI/NICHD/NIDA/ NIMH/**OD** | Health Care Reform: Health Disparities and Patient Safety. | 2004 | 198,587 |
| Anti-Infective Drugs Advisory Committee | Committee/Workgroup | Committee provides expertise in the evaluation of evidence submitted by pharmaceutical companies to the FDA for drug approval. | FDA | Accelerate Discovery to Improve Patient Care: Translate basic science into new therapies. | **NIAID** | Regulatory Science. | 2007 | 0 |
| Antiretroviral Pregnancy Registry | Committee/Workgroup | This is a registry of use of antiretroviral drugs in pregnancy that is sponsored by the various pharmaceutical companies and has a Committee of external experts and government staff from NIH, CDC and FDA. | CDC/FDA | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. HIV/AIDS. | **NICHD** | NONE | 1989 | 0 |
| Assay Development Working Group Meetings | Committee/Workgroup | Invitational work group convened to discuss issues critical to the development of an assay into a robust test that can be used for clinical decision making. Discussions included use cases and approaches to safe harbors for marker development in clinical research. | CMS/FDA | Accelerate Discovery to Improve Patient Care: Translate basic science into new therapies. | **NCI** | Translational Research. Regulatory Science. | 2009 | 0 |

| CLIA Workshop | Committee/Workgroup | Held in conjunction with Spring 2009 Interventional Drug Steering Committee meeting. The purpose was to educate clinicians who participate in biomarker development and early phase clinical trials on the need for performance of assays in CLIA-certified laboratories when the results of those assays are used for clinical decision-making. | CMS/FDA | Accelerate Discovery to Improve Patient Care: Translate basic science into new therapies. Health Care Quality/Patient Safety. | **NCI** | Translational Research. Regulatory Science. | 2009 | 0 |
| Clinical and Translational Science Awards (CTSA) Networking Workgroup | Committee/Workgroup | Federal agencies support more than 600 research networks across the United States. Organized to meet the needs of different constituencies, with unique infrastructure, on limited budgets and often short timelines, they represent both a powerful resource and a significant opportunity for collaboration and health improvement. The goal of the "federation of research networks" workgroup is to explore options for increased linkages across the networks, with the goal of sharing lessons learned, improving processes and outcomes, and utilizing resources efficiently, with the ultimate goal of improving the health of the nation. These linkages may occur between federal agencies, within individual agencies, and at local CTSA sites. | AHRQ/CDC/HRSA | Health Care Quality/Patient Safety | **NCRR** | Empowering Biomedical Research Community: Global Health. | Clinical Data Acquisition Standards Harmonization (CDASH) initiative led by Clinical Data Interchange Standards Consortium (CDISC) | Committee/Workgroup | Harmonization efforts to standardize elements for data capture. | FDA | NONE | **NCI** | NONE | 2006 | 0 |
| Clinical Decision Support (CDS) Federal Collaboratory and Inventory of Federal Clinical Decision Support Activities | Committee/Workgroup | A federal community of interest focused on clinical decision support, and a compilation of project summaries describing CDS activities that are either funded by the US Federal government, or that are being executed by agencies of the government. The term Clinical Decision Support (CDS) describes a variety of tools and technologies that are used within electronic clinical information systems to improve the quality, safety, efficiency and effectiveness of patient care. CDS provides clinicians, staff, patients, and other key decision makers with knowledge and person-specific information, intelligently filtered at appropriate times, to enhance health and health care. CDS encompasses computerized alerts and reminders, clinical guidelines, order sets, order entry feedback, patient data reports and dashboards, documentation templates, diagnostic support, and the presentation of contextually relevant reference information within clinical information systems. NLM has submitted to the Collaboratory and Inventory summaries of NLM projects involving Clinical Decision Support. | AHRQ/CDC/ HRSA/IHS/OS | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public, Fast-track innovation planning and regulatory review, and Innovative Biomedical Technologies. | CC/**NLM** | Health Care Reform: Health Information Technology. | Unknown | 0 |
| Clinical Investigator Interagency Working Group for the Development of Antiviral Influenza Therapeutics | Committee/Workgroup | Objective: To discuss a range of issues relevant to the development of antiviral drugs for the treatment of influenza. | CDC/FDA | Accelerate Discovery to Improve Patient Care: Translate basic science into new therapies. | **NIAID** | Translational Research. | 2009 | 0 |
| Collaboration with the Center for Emergency Medical Research | Committee/Workgroup | Consultant to Research Subcommittee for needs of children in disasters, surge capacity, and some consultative efforts on specific problems/conditions/diseases in disaster preparedness. | OS | Accelerate Discovery to Improve Patient Care: Specific category priorities not reported. Early Childhood Health/Development. | **NICHD**/NINDS | NONE | 2006 | 0 |
| Collaborative Meeting - National Institute on Drug Abuse and the Centers for Disease Control and Prevention | Committee/Workgroup | Discuss mechanisms for information sharing about upcoming initiatives, demonstration projects, or surveillance updates that may affect future directions in science. (SBIR contract solicitation on developing implementation packages for evidence-based HIV prevention intervention materials for drug users--concept #129.) | CDC | Social/Behavior Research. | **NIDA** | Health Care Reform: Behavioral Science. Translational Research. | 2008 | 0 |
| Community Epidemiology Work Group (CEWG) | Committee/Workgroup | Community Epidemiology Work Group (CEWG) is a network composed of researchers from major metropolitan areas of the United States and selected foreign countries which meets semiannually to discuss the current epidemiology of drug abuse. The primary mission of the Work Group is to provide ongoing community-level surveillance of drug abuse through analysis of quantitative and qualitative research data. | SAMHSA | NONE | **NIDA** | NONE | 1976 | 0 |

| Federal Partners in the Gulf Long-Term Follow-up (GuLF) Study Working Group | Committee/Workgroup | The Federal Partners in the Gulf Long-Term Follow-up (GuLF) Study Working Group is an interagency group of Federal agencies responding to potential health effects of the Deepwater Horizon oil spill disaster. The working group was convened to provide input on the design and conduct of the Gulf Long-Term Follow-up (GuLF) study, a longitudinal study of oil spill clean-up workers led by the National Institute of Environmental Health Sciences with support from the NIH Common Fund, NIH OD and BP. Working group members share ideas on ways to maximize interagency efficiency and effectiveness by working collaboratively on areas of common interest and sharing data and samples collected by their agencies, they identify data collection needs that could be met by the GuLF study rather than duplicate surveys to the same population, and they identify agency resources that could be brought together to improve the GuLF study. Scientific oversight for the study is provided by the National Academy of Science's Institute of Medicine. | ACF/ATSDR/ CDC/CMS/FDA/ HRSA/OS/ SAMHSA | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. |---|---|---|---|---|---|---|---|---|
| Institute of Medicine (IOM) Youth Concussions Project | Committee/Workgroup | This project began from interest among members of the Institute of Medicine (IOM)/National Research Council (MRC) Board on Children, Youth, and Families (BCYF) in developing a new activity focused on the topic of sports concussions in youth. A series of conference calls were held in early March 2010 focused on the health and educational issues associated with concussions/mild brain trauma among school-ages populations. The IOM first wanted to explore the need for a workshop or study that could identify key research findings, examine current policies and programs, and offer informed guidance for clinical practices, sports management, and educational settings. Congressional staff have also expressed interest in encouraging IOM to conduct a research review in this area, comparable to the 2002 IOM workshop on the consequences of head impact in youth soccer. To date: 1) IOM has secured funds for "planning meeting" towards a workshop; 2) IOM invites NICHD to attend a planning for the planning meeting on October 1, 2010; and 3) IOM in interested is securing funds for workshop. | CDC | Early Childhood Health/Development. | Ten years post PKU Consensus Conference: State of the Science | Committee/Workgroup | The purpose of this collaboration is to have a scientific discussion to address management of phenylketonuria (PKU) in light of recent research findings. Screening and management guidelines for PKU were last published as the result of a Consensus Conference held in October 2000, and there have been new developments since that time. This new discussion will consider the state of the science in the areas of diet control and management; pharmacologic interventions; PKU and pregnancy; long-term cognitive outcomes and follow-up; and molecular testing, new technologies, and epidemiologic considerations. We are convening working groups to generate and address specific questions related to these topics. In parallel, an AHRQ Evidence-based Practice Committee is independently evaluating the use of newly available pharmaceutical interventions relative to dietary interventions for PKU, with the NIH as a partner in this process. We plan to host a conference in late 2011 (or early 2012) after the AHRQ review process, to discuss the conclusions and recommendations of the working groups. | AHRQ/CDC/FDA/ HRSA | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public, Innovative Biomedical Methodologies, Innovative Biomedical Technologies, Patient-centered Research, and Translate basic science into new therapies. | The Federal Interagency Workgroup on Child Abuse and Neglect (FEDIAWG) | Committee/Workgroup | Since 1996, the Office of Child Abuse and Neglect has continued to lead and coordinate the Federal Interagency Workgroup on Child Abuse and Neglect (FEDIAWG). Over 40 Federal agencies are represented. The FEDIAWG meets in-person on a quarterly basis and various Subcommittees meet on a more regular basis via conference calls. The overall goals of the FEDIAWG are: To provide a forum through which staff from relevant federal agencies can communicate and exchange ideas concerning child maltreatment related programs and activities; to collect information about federal child maltreatment activities; and to provide a basis for collective action through which funding and resources can be maximized. | ACF/AHRQ/CDC/ CMS/HRSA/ SAMHSA | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public. | The HHS Influenza Fact Sheet | Committee/Workgroup | In an effort to "get out the word" about the availability of HHS influenza technologies, an informational document was developed detailing HHS technology transfer practices and polices, particularly as they pertain to influenza vaccine and diagnostic technologies. This document was prepared at the request of the HHS Office of the Secretary, Office of Global Health Affairs and is available online in English, Spanish, Chinese, and Vietnamese. The document summarizes the HHS position regarding seeking patent protection and granting of licenses to these patent portfolios as well as unique biological materials. It specifically highlights that HHS activities involving influenza intellectual property and biological materials have been consistent with these policies and provides information on the technologies available for commercial development by a suitable license applicant. The document encourages organizations from any country to apply for a license for the various influenza technologies and highlights certain features of the license agreements meant to encourage broad dissemination of products, such as no royalties on products donated or sold at cost to public institutions for use in | CDC | Global Health: Infectious Diseases. | NIAID/**OD** | NONE | 2009 | 0 |
| The Maternal-Fetal Medicine Units Network | Committee/Workgroup | Since 1986, the Maternal-Fetal Medicine Units Network conducts clinical studies to improve maternal, fetal and neonatal health emphasizing randomized-controlled trials. The aims of the Network are to reduce maternal, fetal, and infant morbidity related to preterm birth, fetal growth abnormalities, and maternal complications, as well as providing the rationale for evidence-based, cost-effective, obstetric practice. | AHRQ | Health Care Quality/Patient Safety. | **NICHD**/OD | NONE | 2007 | 0 |
| The Trans-NIH Rare Diseases Working Group | Committee/Workgroup | The Trans-NIH Rare Diseases Working Group was established in 2004. The working group assists ORDR to carry out its mission by working towards a set of goals that build on partnerships ORDR has developed with NIH Institutes, Centers, and Offices, HHS agencies, and other organizations that address issues in rare diseases research such as identifying research opportunities and advances in rare diseases research; promoting coordination and cooperation in joint research efforts among the NIH ICs and Offices and the research entities they support. | FDA | Accelerate Discovery to Improve Patient Care: Disseminate health information to the public, Fast-track innovation planning and regulatory review, Innovative Biomedical Methodologies, Innovative Biomedical Technologies, Patient-centered Research, and Translate basic science into new therapies. | Trans-NIH Nanotechnology Task Force: National Nanotechnology Initiative (NNI) call for trans-agency Signature Initiatives | Committee/Workgroup | In response to NNI's call for Signature Initiatives, the NIH Nanotechnology Task Force (NIDCR and NIBIB representatives) together with FDA and other Federal Agencies (NIST, NSF, and DoD) have generated a draft of the Initiative entitled "Nano-Regenerative Medicine". The overarching goals of this Initiative are to develop robust and efficient platforms for standardization, fabrication, GMP manufacturing, and regulatory approval of nanotechnology-based products that will lead to new paradigms in low-cost therapies targeting regeneration of a range of tissues in the human body affected by disease and injury. On July 24, 2009, the draft of the Initiative was submitted for review to the Office of Science and Technology Policy through NNI. In 2010, a trans-Federal Agency Working Group was formed to continue the development of this Initiative. | FDA | Accelerate Discovery to Improve Patient Care: Fast-track innovation planning and regulatory review, Innovative Biomedical Methodologies, Innovative Biomedical Technologies, Patient-centered Research, and Translate basic science into new therapies.
