

Portfolio Analysis Overview

A Snapshot of the NIH FY 2020 SGM Portfolio Analysis

National Institutes of Health
Sexual & Gender Minority Research Office

According to the NIH RePORTER, a total of 500 sexual and gender minority (SGM)-related projects were funded in FY 2020. The total dollar amount of SGM-related funding across the NIH was \$284,051,683.

Key findings from the FY 2020 Portfolio Analysis include the following:

SGM Project Increases

The **total number of projects** has **increased 66.1%** since 2015, from 301 to **500**.

Non-HIV/AIDS Funding

The **total number of non-HIV/AIDS** projects reached an all-time high in FY 2020.

Training Awards

The **total number of training- and career-related awards** in FY 2020 **increased 89.8%** compared with FY 2015.

Men who have sex with men (MSM), transgender individuals, and bisexual individuals are the **three largest** populations **indicated**,¹ accounting for **55.0%**, **21.9%**, and **17.2%** of the projects, respectively.

Largest Populations Represented

SGM-Categorized Projects

In **total**, **5.9%** of all **SGM-categorized projects** pertain to **disorders or differences of sex development (DSD)** and **intersex** populations.

SGM Portfolio Project Increases

The **total number of projects at the NIH** **increased** from 51,382 in FY 2015 to **62,581** in FY 2020, an increase of **21.8%**. The **SGM portfolio**, by contrast, **increased** from 301 in FY 2015 to **500** in FY 2020, an increase of **66.1%**.

¹ Project inclusion is based on both specific and relevant research, indicating the presence of an element of the project that pertains to the health of a given population; it does not necessarily mean that the project is primarily about that population.
