

The Gut Microbiome and Dietary Acculturation among U.S. Immigrants

Thursday, October 20, 2022 | 12:00 – 1:30 pm ET

Watch NIH VideoCast: <https://videocast.nih.gov/watch=46111>

If you require reasonable accommodations to participate, please contact nutritionresearch@nih.gov by October 3, 2022.

The seminar will explore the role of the dietary acculturation process among U.S. immigrants and its influence on the changes in the gut microbiome and possible associations with increased disease risk. It is a collaboration between the [Microbiome, Diet, and Health Interrelationships](#) and [Nutrition and Health Disparities](#) Implementation Working Groups. These working groups, along with five other topic-based groups, are charged with assisting the [NIH Office of Nutrition Research \(ONR\)](#) implement the [Strategic Plan for NIH Nutrition Research](#).
