

*Cosponsored by the NIH Sexual and Gender Minority Research Office (SGMRO)  
and the NIH Office of Research on Women's Health (ORWH)*

*Women's Health Seminar Series:*

# Improving the Health and Well-being of Young Transgender Women: Intersections of Research, Policy, and Practice

**Thursday, December 6, 2018 | 1:00 p.m.–3:00 p.m.**

**Masur Auditorium, Building 10, Clinical Center, NIH Main Campus**

## Featuring:

### **Nadia Dowshen, M.D., M.S.H.P.**

Co-founder and Medical Director,  
Gender and Sexuality Development Clinic,  
Children's Hospital of Philadelphia (CHOP)

Dr. Dowshen is a board-certified pediatrician and adolescent medicine specialist. She provides specialized care for youth living with HIV infection and medical care to transgender and gender-diverse youth. Her research is dedicated to addressing health inequality, access to care, and promoting resilience for transgender and gender-diverse children and adolescents. In this seminar, Dr. Dowshen will discuss how data have been used to inform policy and develop a successful multidisciplinary model of clinical care for transgender children and adolescents.

This seminar will introduce a new series of webinars—set to launch in February 2019—that will focus on the effects of sex and gender influences among women who are understudied, underrepresented, and underreported—the U3 population—in interdisciplinary research in the United States. More information is available at <https://orwh.od.nih.gov/research/interdisciplinary-research/u3>.

This seminar will be videocast live. To watch the seminar online, visit <https://bit.ly/2Q5mTUR>. If you are requesting continuing education credits, please register at <https://orwh.od.nih.gov/form/seminar-series-december-2018>.

For those not requesting credit, registration is not required but is preferred; seating is on a first-come, first-served basis. Fire regulations require that every person in the Masur Auditorium occupy a seat. Standing in the aisles or in the back of the auditorium is not permitted. Sign language interpreters can be provided. Individuals with disabilities who need reasonable accommodations to participate in this event should contact Elizabeth Sekine at [Elizabeth.Sekine@nih.gov](mailto:Elizabeth.Sekine@nih.gov), or via phone at 301-594-9007 (TTY: 800-877-8339).
