- Quick links in Table View for associated documents in iSearch - Grants ([click here](#) to learn more)
- Transfer directly to iSearch - Publications to view publications associated with a grant in Table View ([click here](#) to learn more)

Record View – shows full details of individual records including linked publications, grants, patents, clinical trials, and approved drugs. New features include:

- Search for Similar Records and transfer results to a new iSearch window for further exploration ([click here](#) to learn more)

User Preferences – a new feature allows users to:

- Select columns to display in Table View ([click here](#) to learn more)

Searches – new functionality in the iSearch - Grants module allows you to search for grants using partial grant numbers. The following formats are supported:

- HD092896 (Admin IC & Serial Number)
- HD092896-01 (Admin IC & Serial Number & Support Year)
- 092896-01 (Serial Number & Support Year)
- 092896-01A1 (Serial Number & Support Year & Suffix Code)
- R01GM092896 (Activity Code & Admin IC & Serial Number)
- 1R01GM092896 (Appl Type Code & Activity Code & Admin IC & Serial Number)
- 1R01GM092896-01 (Appl Type Code & Activity Code & Admin IC & Serial Number & Support Year)
- 1R01GM092896-01A1 (Appl Type Code & Activity Code & Admin IC & Serial Number & Support Year & Suffix Code)
- Leading zeros can be omitted from the serial number.

A full list of the new and enhanced features can be found in our online user guide:
