**iSearch v2.4: Summary of New Features**

*iSearch* is NIH’s next-generation portfolio analysis platform, providing comprehensive, easy-to-use access to a carefully curated, extensively linked data set of global grants, patents, publications, clinical trials, and approved drugs.  

[https://itools.od.nih.gov/dashboard/](https://itools.od.nih.gov/dashboard/)

**Table View** – Displays a list of search results. Table View has been updated in version 2.4 (see right image below, details [here](https://itools.od.nih.gov/dashboard/)); the table now includes:

- Relevance scores – Bars in Table View display similarity of results compared with record / search criteria ([click here](https://itools.od.nih.gov/dashboard/) to learn more)

**Record View** – Includes full details from individual records including linked publications, grants, patents, clinical trials, and approved drugs. New features include:

- PCC codes – Distinguishes and lists Main PCC as well as All PCC (primary vs secondary codes)
- Other PIs and Key Personnel – Provides addresses, organizations, PIIDs and roles listed in grant application in Record View and Export

**Searches / Advanced Filters** – Now allow users to:

- Boost search terms in text search to prioritize more significant terms over others
- Find NIH and/or OPA defined RPGs in the Grants module (see definition [here](https://itools.od.nih.gov/dashboard/))
- Filter by Active flag
- Search for Main PCC only

**Facets** – Allow users to narrow down their search. New features include:

- Ability to reset selected / deselected facets in the modify facets dialog (see details [here](https://itools.od.nih.gov/dashboard/))
- Edit facets and filters in the breadcrumbs trail
- Approval year for drugs has been added to the Drugs module
- Patent type “grant” has been updated to “granted” in the Patents module
- Facet by RFA-PA number in Grants module
- Help icons are available for all facets now

**Export** – Has been improved to include:

- Visualization groupings (see details [here](https://itools.od.nih.gov/dashboard/))
- Link to source e.g. QVR snapshot page
- Portfolio name in file name and summary tab

A full list of the new and enhanced features can be found in our online user guide:  

**Did you know OPA also offers:**

- Portfolio Analysis training
- Weekly office hours
- Consultations and collaborations
- Tools and methods development
