

ORIP Concept Clearance

Developing and Improving Institutional Animal Resources (G20)

Elisabeth Koss, Ph.D.
Program Officer
Division of Construction and Instruments
Office of Research Infrastructure Programs
DPCPSI

Background

Activity funded since 1989 by NCRR.

Program transferred to ORIP in FY 2012

Mission: To upgrade existing animal facilities that support the conduct of biomedical and/or behavioral research.

Description

The awards will assist biomedical research institutions to

- Upgrade existing animal facilities that support biomedical and behavioral research
- Support alterations and renovations to improve laboratory animal facilities
- Purchase fixed and moveable equipment for animal facilities, such as cages and tunnel washers, biosafety cabinets, animal surgical equipment, or air handler systems

Solicitation

Funding Opportunity Announcement (RFA)

Developing and Improving Institutional Animal Resources
(G20) [reissue of RFA-RR-10-011]

Eligibility: Academic Institutions and biomedical research
organizations/institutes

Award information

G20 mechanism: Resource Programs. Grants for Repair, Renovation and Modernization of Existing Research Facilities.

Available funds: Approximately \$ 7 M in FY2013; anticipate making 12-14 awards (with a cap of \$500,000).

No RFA issued in FY 2011 because of policy issues that are now resolved.
